

Finding Keywords

1. What is your question or topic? Write it as a sentence.
2. Circle the most important words.
3. Write your important words in this chart and try to think of a synonym (word that means the same) for each one. If your important word is a name, try other forms of the name or other spellings as a synonym.

Important Words	Synonyms
EXAMPLE Madame C.J. Walker	C.J. Walker Sarah Breedlove (real name)

These are your keywords!

You may need to change them as you search, but this is a good place to start.
